

GET GREASE UNDER CONTROL

Keystone Greaselift™

- ▲ Penetrates grease to quickly lift it from surfaces
- ▲ Low odor
- ▲ Does not require gloves or goggles during use ¹
- ▲ Safe on aluminum and other soft metals

Heavy duty degreaser that requires no gloves or goggles to clean ovens, grills, stove hoods and vents.

¹ At proper dilution rate

Keystone Greaselift™ features a unique technology that penetrates tough, baked on-grease and lifts it away from the surface. Keystone Greaselift is biodegradable, has no noxious odors, and will not damage aluminum surfaces.

DIRECTIONS FOR USE:

1. Spray Keystone Greaselift onto warm (120° F) surface with carbonized grease to be cleaned. Cover soiled areas completely with foam.
2. Allow Keystone Greaselift to penetrate grease deposits for 1-5 minutes. Do not let product dry on surface.
3. Wipe off dissolved and loosened grease with a scrub pad or a damp cloth.
4. Rinse surface with water.

NOTES:

At proper dilution rate, **Keystone Greaselift does not require gloves or goggles.** Caution should be used when cleaning hot surfaces.

Keystone combines the foodservice knowledge of Sysco, with the cleaning and sanitization expertise of Ecolab. Our experienced and dedicated sales teams provide you personalized support to help you run a clean and safe operation.
